

Justin Kerr

justinkerr4018@gmail.com — 484-991-4132 — Collegeville, PA 19426 — [Portfolio Website](#)

Summary

Computer Science graduate with a strong analytical foundation and experience solving business and technical problems, working with data, and learning new technologies quickly. Comfortable working independently and collaboratively to improve processes, troubleshoot issues, and build practical solutions. Known for adaptability, curiosity, and a willingness to take on new challenges in technical or business-focused environments.

Education

West Chester University

Dec 2025

B.S. Computer Science, *Magna Cum Laude*

Minor: Applied Statistics

Montgomery County Community College

Dec 2023

A.S. Computer Science, *Cum Laude*

Technical Skills

Programming: HTML, CSS, JavaScript, Python, Java, Swift, SQL

Data & Analysis: SQL, Relational Databases, MongoDB, Pandas, Matplotlib, Plotly

Tools: Git, Docker, Virtual Machines, Microsoft Office, ChatGPT

Core Knowledge: Troubleshooting, Process Improvement, Operating Systems, Statistics, Data Structures, Problem Solving

Projects

Bank Analyst

[GitHub](#)

Python, MySQL, Pandas, SQLAlchemy, Matplotlib, Plotly

Overview: Developed for individuals seeking greater insight into their personal finances, this application consolidates transaction data from multiple bank accounts to provide a centralized view of spending habits, major expenses, and long-term net worth trends.

- Built a personal finance analytics application that consolidates transaction data from multiple bank accounts into a centralized database for long-term spending and net-worth analysis.
- Designed a reliable data-import process with duplicate detection, enabling repeated CSV imports without creating redundant records.
- Cleaned and standardized inconsistent banking data to improve reporting accuracy and reduce manual correction effort.
- Created interactive dashboards to identify spending trends, major expenses, and changes in net worth over time.
- Used SQLAlchemy and environment-based configuration to improve maintainability and support secure handling of database credentials.

Portfolio Website

<https://justinkerr401.github.io> — [GitHub](#)

HTML, CSS, JavaScript, GitHub Pages

- Designed and developed a responsive website to present projects, technical skills, and professional experience.
- Structured content and navigation to improve usability and make information easy to access.

- Deployed and maintained the site through GitHub Pages using version control for ongoing updates.

Stock Trader Aider

[GitHub](#)

Python, Data Analysis, APIs, Automation

Overview: A portfolio tracking application that gives stock investors a centralized view of their investments across multiple brokerage accounts.

- Developed a Python application that retrieves and analyzes stock market data to support data-driven decision making.
- Automated data collection and processing tasks, reducing manual effort and improving efficiency.
- Troubleshoot data retrieval and analysis workflows to improve reliability and accuracy.
- Organized the project into modular, maintainable components to support future enhancements.

20/20/20 Vision Aid PWA

<https://justinkerr401.github.io/202020-Aid/> — [GitHub](#)

JavaScript, HTML, CSS

- Built a Progressive Web App that encourages healthy screen habits using the 20/20/20 rule.
- Implemented timers and break reminders to create a simple, practical productivity tool.
- Improved performance and offline usability using PWA best practices.
- Investigated and resolved browser and mobile-platform issues affecting application behavior.

Experience

Target — Phoenixville, PA

Aug 2022 – Jan 2024

Checkout Advocate, Service Advocate

- Delivered high-volume customer service, resolving issues efficiently in a fast-paced retail environment while collaborating with team members.
- Strengthened communication, adaptability, and problem-solving through daily operational coordination.

Collegeville Italian Bakery — Collegeville, PA

Oct 2017 – Aug 2022

Dining Room Attendant, Pizzeria Attendant, Drive Thru Head

- Led drive-thru operations coordinating multi-department orders while maintaining speed and accuracy under pressure.
- Trained new employees and served as a senior team member supporting onboarding and operational consistency.

Core Competencies

Analytical Thinking — Problem Solving — Adaptability — Communication — Attention to Detail — Continuous Learning

Interests

- Completed a marathon (Delaware Running Festival 2025 — Marathon), demonstrating discipline and long-term goal commitment
- Ranked competitive video game player since September 2023, reflecting strategic thinking and continuous performance improvement
