

Justin Kerr

justinkerr4018@gmail.com — 484-991-4132 — Collegeville, PA 19426 — [Portfolio Website](#)

Summary

Computer Science graduate with hands-on experience developing software projects, troubleshooting technical issues, and building practical technology solutions. Strong foundation in Python, Java, SQL, Git, and operating systems, with experience using AI-assisted development tools such as ChatGPT to support problem-solving, debugging, and workflow efficiency. Proven ability to learn new technologies quickly, communicate effectively, and deliver reliable solutions in both technical and customer-focused environments.

Education

West Chester University

Dec 2025

B.S. Computer Science, *Magna Cum Laude*

Minor: Applied Statistics

Montgomery County Community College

Dec 2023

A.S. Computer Science, *Cum Laude*

Technical Skills

Languages: HTML, CSS, JavaScript, Python, Java, Swift, SQL

Familiar: C, Haskell

Tools & Technologies: Git, Node.js, Docker, Virtual Machines, ChatGPT (AI-assisted development)

Databases: Relational Databases (Schema Design, Queries), MongoDB

Concepts: Troubleshooting, Debugging, Operating Systems, Data Structures, Algorithms, Databases, Statistics, Agile Development, AI-Assisted Development Workflows

Projects

Bank Analyst

[GitHub](#)

Python, MySQL, Pandas, SQLAlchemy, Matplotlib, Plotly

- Developed a personal finance analysis application that imports bank transaction data from CSV files into a MySQL database for long-term financial tracking.
- Designed an automated data ingestion pipeline with duplicate detection to safely process repeated CSV imports without creating redundant records.
- Implemented robust CSV parsing and data-cleaning logic to repair malformed transaction records caused by inconsistent bank export formatting.
- Built interactive visualizations of account balances and net worth over time using Pandas, Matplotlib, and Plotly to provide actionable financial insights.
- Secured database credentials using environment variables and SQLAlchemy-based database integration to improve maintainability and protect sensitive information.

Portfolio Website

<https://justinkerr401.github.io> — [GitHub](#)

HTML, CSS, JavaScript, GitHub Pages

- Designed and developed a responsive portfolio website to showcase technical projects and skills.
- Deployed via GitHub Pages with version control, supporting ongoing maintenance and updates.
- Structured content and navigation to improve usability and user experience.

Stock Trader Aider

[GitHub](#)

Python, Data Analysis, APIs, Automation

- Identified the need for a simplified, data-driven tool to assist individual traders in making informed stock decisions.
- Designed and developed a Python-based application to retrieve, process, and analyze stock market data.
- Troubleshoot data retrieval, parsing, and analysis workflows to ensure accurate processing of information.
- Automated data collection and processing tasks, reducing manual effort and improving efficiency.
- Structured the application with modular, maintainable code to support future enhancements.

20/20/20 Vision Aid PWA

<https://justinkerr401.github.io/202020-Aid/> — GitHub

JavaScript, HTML, CSS

- Developed a Progressive Web App promoting healthy screen habits using the 20/20/20 rule.
- Implemented session timers and automated break notifications to improve user experience.
- Optimized performance and offline functionality using PWA principles.
- Evaluated and resolved browser and mobile platform limitations affecting application behavior.
- Applied the 20/20/20 workflow to improve personal productivity and development effectiveness.

Experience

Target — Phoenixville, PA

Aug 2022 – Jan 2024

Checkout Advocate, Service Advocate

- Delivered high-volume customer service, resolving issues efficiently in a fast-paced retail environment while collaborating with team members.
- Strengthened communication, adaptability, and problem-solving through daily operational coordination.

Collegeville Italian Bakery — Collegeville, PA

Oct 2017 – Aug 2022

Dining Room Attendant, Pizzeria Attendant, Drive Thru Head

- Led drive-thru operations coordinating multi-department orders while maintaining speed and accuracy under pressure.
- Trained new employees and served as a senior team member supporting onboarding and operational consistency.

Strengths

Adaptable — Continuous Learner — Problem Solver — Team-Oriented

Interests

- Completed a marathon (Delaware Running Festival 2025 — Marathon), demonstrating discipline and long-term goal commitment
- Ranked competitive video game player since September 2023, reflecting strategic thinking and continuous performance improvement
